RG104 E-1 Box 121

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 4th June —, 1880.

Sir,

Our stock of melting coal is exhausted. The order just received for $1,000,000= silver coin during June, requires me to make 54 melt pr day for the next ten days, prior to making the usual annual settlement. In response to my query as to prices, Mess. G. B. Newton & Co. offer to supply the coal we have received from them, and which proved so eminently satisfactory, at the rate of $5.75 per U.S. Ton, This is only six cents in advance of the very inferior coal, lately supplied by Mess. Patrick and Lipsett, but in true economy is about .50 ¢ pr. ton cheaper than the last.

Very respectfully yours

Hon. A. Loudon Snowden, Superintendent.

I. C. Booth, M. & R.
